When you're looking for five-star cuisine
And a meatloaf like you've never seen
Stop right on the corner
Patio's open when its warmer
You'll leave full feeling anything but lean.

When you're looking to jazz up your home
They've got style using metals like chrome
With great gifts for a friend
They're always on-trend
And trust us, the name's not from Rome

A new spot but not new to this town
They're playing, just not playing around
Their furnaces would blast
And they celebrate our past
On Main is where they'll be found

The sauce, cheese and meats, are divine
Stop in and they'll even provide wine
In the oven of brick
Your pizza is done awfully quick
The last piece, you'll be yelling "That's Mine!"

If you're one for a cherry on top
And your tummies like it a lot
Any traditional flavor
Even unique ones to savor
Our sundaes make us the best place to stop

Our vessels have oil to spare
With ideas on how just to share
As wind fills the spinnaker
Come sample the vinegar
Your meals no more will be bare

There once was a man with great tweed
On the corner is where he'd proceed
To grab a tartan of hope
Or a masculine tote
Though he fancied the soap with seaweed

For your bottles, we've got the right tote
And we'll talk about our proud fainting goat
Straight from the vine
Our product's divine
And our flights we'll keep you afloat

We'll help you stand out from the crowd
We admit, some prints may be loud
But our passion is fashion
With cute clasps to fasten
An outfit you'll definitely be proud

It was easier to get your friends flask
Now this is the ultimate task
Visit us for the best bling
We'll help find that special ring
So with confidence you'll be able to ask

Like a bottle that's ready to pop
And cocktails perfected on top
Sit outside when it's nice
It's twice, not thrice
Eat here and you won't want to stop

Stroll in for this historical treasure
Recipes prepared beyond measure
And with just one ounce
You'll sure love to bounce
Thank them, they'll respond "With Pleasure"

To take care is easy and quick
With cacti to give a soft prick
The best greens in the neighborhood
If you're new to plant parenthood
With their support, you'll sure learn the trick!

They'll give you a historical tour
Like the place where water would pour
In the Industrial Quarters
Within the Moravian borders
Unlock the past and oh so much more

Crystals with a beautiful glimmer
Whether you're a collector or just a beginner
Rainbows beam here to there
With new ornaments everywhere
Stop by if you're looking for shimmer

In a snug is where you might be
With a Guinness, a whiskey, or tea
Maybe humming a tune
While under the moon
On the Paddy-O singing with glee

A special, unique way to dine
Sangria made from fine wine
Come in, share the plates
The perfect menu awaits
The lamb meatballs are truly divine

With a pot for filling up gold
Melting down from the beautiful mold
Cover your strawberries here
Give your meat a quick sear
Stop by for treasures untold

The guac is waiting for you
Perfect dining for one or a few
Tasty pork, steak or chicken
Wrapped fresh from their kitchen
End with a margarita or two

After a long day of work when you're achin'
An infusion is what you'll want shaken
A twist is the cure
You'll feel better we're sure
Reserve now or your seat may be taken
